

Passport is being adopted within the first three months of start of works on many Highways England projects, schemes or contracts.

Cardholders

Make sure you take your card to work so it can be checked on project.

You can also get a Passport virtual smartcard loaded into your mobile if you would like, so you don't need to remember to bring the physical smartcard with you. Contact your Passport Administrator (at your employer company) to request this.

Card Checkers

If you're a card checker or access controller, make sure you have the app downloaded or are using the web card reader.

Scan the QR code below to download the app:
